

Danville Interchange Gardens

SPONSORSHIP INFORMATION

City of Danville, Virginia

Thank you for your inquiry regarding sponsorship of a landscaped site. The City of Danville has initiated the Danville Interchange Gardens Program (D.I.G.) to enhance the visual aspects of the City with shrubs, trees, and annual plants. The program consists of landscaping the City interchanges and soliciting sponsors for continuing maintenance.

Sponsorship cost is \$3,000 per year (\$250 per month) for five years. The agreement can then be renewed for three-year intervals. For this contribution, the City will maintain the upkeep and appearance at the highest professional level possible. This includes but not limited to the original design work, all plants, mulch, regular maintenance, and replacement of any materials necessary.

The sponsoring organization is permitted to place an 18" x 42" (minimum) single-sided sign constructed of wood at the site. City crews will be responsible for installing the sign after it is fabricated.

Additional sites are being located and designed throughout the City and will be available for sponsorship in the future. If there is a specific site that you would like to see landscaped, feel free to make a suggestion.

To discuss this exciting project in more detail, please call Rick Drazenovich or Denise Wyatt at 799-5245. We look forward to hearing from you soon.
