SOCIAL IMPACT

GLASS RECYCLING 2ND QUARTER 2023

24 tons of glass collected

\$1,202 donated to the local United Way

7,889 KG of CO₂ saved

131.1 tree seedlings grown for 10 years (in relation to carbon sequestered)

26.7 tons of raw materials displaced

1.7 equivalent to passenger vehicles removed from the road (as related to Green House Gas emissions)

WHY RECYCLE GLASS?

Glass recycling contributes to the overall health and well-being of communities. It conserves energy and natural resources while also reducing waste.

GLASS4GOOD™ is a program developed by O-I to increase glass recycling in every community in which they operate. Through collaboration with the City of Danville, residents can safely and properly recycle their glass at four designated collection sites. After processing, the collected glass (cullet) from Danville's GLASS4GOOD™ program is used at O-I's closest facility and is formed into new glass, sometimes in as little as 30 days. To further impact the community through glass recycling, O-I also provides a charitable donation to United Way of Danville-Pittsylvania County based on the weight of collected glass.

UNITED WAY OF DANVILLE-PITTSYLVANIA COUNTY

The United Way of Danville-Pittsylvania County in Virginia is celebrating 100 years of providing for the needs of less fortunate individuals in our community. Through specific goals and outcomes, the United Way invests in services that address third grade reading, reducing barriers to middle school students' on-time graduation, assisting the homeless and those impacted by domestic violence, serving the aged, and training the unemployed. Through these local initiatives, we're able to make a difference in the lives of thousands each year and in turn building a stronger community.

MAKING A DIFFERENCE IN DANVILLE

Danville's GLASS4GOOD™ program currently benefits Danville Pittsylvania Cancer is an organization focused on improving the quality of life for local cancer patients by providing access to services needed to help in their battle against cancer.

Danville-Pittsylvania Cancer Association (formally Danville Cancer Association) was formed in 1959 and is a 501 (c)(3) charitable organization under IRS ruling. Originally the association began as a three part program that contributed towards local cancer research that was conducted by local physicians. The second part of the program included providing educational materials concerning cancer that was presented by representatives of the association to groups and the general public. The last part of the program was the patient services end, where aid in the form of travel reimbursement was provided for clients traveling out of town for treatments and through donated medical supplies and equipment.

~ GLASS FACTS ~

A glass bottle can go from the recycling bin back to the store in as little as 30 days

At O-I Glass we love glass and we're proud to be one of the leading producers of glass bottles and jars around the globe.
