WHY RECYCLE GLASS?

Glass recycling contributes to the overall health and well-being of communities. It conserves energy and natural resources while also reducing waste.

GLASS4GOOD™ is a program developed by O-I to increase glass recycling in every community in which they operate. Through collaboration with the City of Danville, residents can safely and properly recycle their glass at four designated collection sites. After processing, the collected glass (cullet) from Danville's GLASS4GOOD™ program is used at O-I's closest facility and is formed into new glass, sometimes in as little as 30 days. To further impact the community through glass recycling, O-I also provides a charitable donation to United Way of Danville-Pittsylvania County based on the weight of collected glass.

UNITED WAY OF DANVILLE-PITTSYLVANIA COUNTY

The United Way of Danville-Pittsylvania County in Virginia is celebrating 100 years of providing for the needs of less fortunate individuals in our community. Through specific goals and outcomes, the United Way invests in services that address third grade reading, reducing barriers to middle school students' on-time graduation, assisting the homeless and those impacted by domestic violence, serving the aged, and training the unemployed. Through these local initiatives, we're able to make a difference in the lives of thousands each year and in turn building a stronger community.

Celebrate America Recycles Day with GLASS4GOOD™

America Recycles Day is a national observance dedicated to promoting and educating about Recycling. Every year, America Recycles Day is observed on November 15th. O-I invites you to celebrate America Recycles Day by recycling your glass with GLASS4GOOD™. Bring your glass recyclables to one of the designated glass collection sites in Danville and make a difference. With your help, we can continue to make an impact.
