

NOTICE OF CITIZENS INFORMATION MEETINGS Danville – Pittsylvania MPO Transportation Studies

DANVILLE-PITTSYLVANIA COUNTY, VIRGINIA

The Danville Area Metropolitan Planning Organization (MPO) is conducting studies for improving the transportation in the Danville-Pittsylvania Urbanized Area. The process of developing these studies includes opportunities for citizen involvement, and the schedules for the first meetings for each study are detailed below.

The purpose of these meetings is to present alternatives for improvements. At each meeting material to be presented will include maps, aerial photographs, and other exhibits. Citizens will be encouraged to express their comments and concerns as the planning for each improvement continues. Both staff and consultants will be available at each meeting to answer questions.

The meeting dates, times and locations for each of the two studies are:

- 1. Moorefield Bridge Road Study:** A planning level study to evaluate improvements along the existing alignment of Moorefield Bridge Road (Route 863). The Study Area will consist of Route 863 between and including its intersection with Mount Cross Road (Route 750) and Westover Drive (VA 51). The intent of the evaluation will be to define the most advantageous locations for spot improvements as well as to determine the need for signalized traffic control (in addition to the optimal intersection configuration) at the intersection of Route 863 and Route 750. The first meeting of the Moorefield Bridge Road Study is scheduled for:

**Wednesday, March 20, 2013 from 3-4:30 p.m.
Danville Regional Airport
424 Airport Drive
Danville, VA 24540**

- 2. Kentuck Road Study:** A planning level study to evaluate improvements along a portion of the existing alignment of Kentuck Road (Route 729). The Study Area will consist of Route 729 between and including its intersection with Little Creek Road (Route 732) and South Boston Road (US 58).

**Wednesday, March 20, 2013 from 4:30-6 p.m.
Danville Regional Airport
424 Airport Drive
Danville, VA 24540**
